Liberal. Required courses provide a foundation in Geography (which takes a holistic approach to environmental sciences, distinguished in particular, by its incorporation of human and climatic elements). By completing these courses students will be armed with the prerequisites necessary for 300-level courses in Geography. Our set of complementary courses provides students with necessary analytical skills and a broad background in physical geography. The 300-level courses in the complementary set prepare students for advanced study at the 400- and 500-level.</p> </div>
