

*Secretary's note:* Response received from Professor Gale in the Department of Physics indicated that new courses approved at the SCTP meeting of January 16, 2003 will be either electives or courses that students will take in place of exempted courses where they have already completed the lecture component of some courses. Therefore, program revision proposals are not required for these new courses.

08.04 **FACULTY OF ENGINEERING** – 02-SCTP-01-29

Department of Mining, Metals and Materials Engineering

**M.Eng. in Mining Engineering; Project – Inter-University Mining** (45 cr.)

Professor Mitri joined the meeting to discuss this new option of an existing program proposal. It will be jointly offered with McGill, Université Laval, École polytechnique and Université du Québec en Abitibi-Témiscamingue (UQAT). Professor Mitri explained that most mining engineering programs are small at the Québec universities, which also means that the number of specialized courses available at any

Department of Chemical Engineering

**B.Eng. in Chemical Engineering** (111 cr.)

Program revisions:

- Required Course MIME 221 increased in credit weight from 1 to 2 cr.
- Required Courses credit weight increased from 95 to 96 cr.
- program credit weight increased from 110 to 111 cr.

Program revisions approved; it will be reported to APPC for information only

ECSE 483 Multidisciplinary Project 1 (3 cr.)

SCTP requested:

- clarify in Prerequisite as to what is meant by “Departmental courses” (i.e., specify 42 credits of ECSE courses or 42 credits of EDEC courses)
- indicate in restriction at what level students may take this (e.g., second-year students or later-year students)
- responses should be forwarded to SCTP Secretary ([cindy.smith@mcgill.ca](mailto:cindy.smith@mcgill.ca))

SCTP’s suggested change:

- revise description to delete last two sentences, as this is information that belongs in a course syllabus; description should simply read: “The first part of a 6-credit team project requiring collaboration with non-electrical/computer engineers”
- correct type in rationale for subject code in course ESCE 494 – should read: ECSE 494

New course approved with these changes

ECSE 484 Multidisciplinary Project 2 (3 cr.)

SCTP’s suggested changes:

- add to Prerequisite, after course title, “(to be taken in previous semester)”
- revise description to delete last two sentences, as this is information that belongs in a course syllabus; description should simply read: “The second part of a 6-credit team project requiring collaboration with non-electrical/computer engineers”

New course approved with these changes

Department of Mechanical Engineering

**B.Eng. in Mechanical Engineering** (113 cr.)

**B.Eng.; Honours in Mechanical Engineering** (112 cr.)

Program revisions:

- Required Course MIME 221 increased in credit weight from 1 to 2 cr.
- Required Courses credit weight increased from 90 to 91 cr.
- program credit weight increased from 111 to 112 cr.

Program revisions approved; it will be reported to APPC for information only

## 08.05 FACULTY OF ARTS – 02-SCTP-01-31

Department of Art History and Communication Studies

Letter from the Chair of the Department indicated that they would like to change the subject code for Communication Studies courses from ENGC to COMS. The rationale is: “... change from ENGC to the new COMS reflects the appropriate discipline. [Their] courses are not given by the Department of English and as Communication Studies (COMS) is a separate entity [they] feel that it should stand as and be recognized as such.”

This request has been duly noted by SCTP. As this is a Banner issue, SCTP suggests that this request be put forward to Ms. Anna Walsh in the Banner Office by the Department of Art History and Communications Studies or the Faculty of Arts. SCTP would like to be copied on the notification to the Department or Faculty of the decision made by the Banner Office.

There was a query concerning the description that does not appear in the Calendar for bulleted courses, specifically if it was contained in the IMS system used previous to Banner. Dr. Crago replied that she would verify with the University Timetable Office or Marjorie Russell in the Calendar Office to ensure that this information can be accessed for the course being made “inactive” under Banner.
