1 Dean's Welcome

To Graduate Students and Postdoctoral Fellows

I am extremely pleased to welcome you to McGill University. Graduate and Postdoctoral Studies (GPS) collaborates with faculties and other administrative and academic units to provide strategic leadership and vision for graduate teaching, supervision, and research across 400 graduate programs. GPS also oversees quality assurance in admissions and registration, the disbursement of graduate fellowships, support for postdoctoral fellows, and facilitates graduate degree completion, including the examination of theses. GPS has partnered with Enrolment Services to manage the administration of graduate students and postdoctoral fellows and to offer streamlined services in a one-stop location ([Service Point](#)).

McGill is a student-centred research institution that places singular importance upon the quality of graduate education and postdoctoral training. Graduate and Postdoctoral Studies works closely with the Faculties, central administration, graduate students, professors, researchers, and postdoctoral fellows to provide a supportive, stimulating, and enriching academic environment for all graduate students and postdoctoral fellows.

McGill is one of Canada's most intense research universities, ranked 2nd by QS World University Rankings 2014. We recognize that these successes come not only from our outstanding faculty members, but also from the quality of our graduate students and postdoctoral fellows and the community into which we are very happy to welcome you.

I invite you to join us in advancing this heritage of excellence at McGill.

2.3 General Statement Concerning Higher Degrees

Graduate and Postdoctoral Studies (GRS) oversees all programs leading to graduate diplomas, certificates, and higher degrees, with the exception of some programs in the School of Continuing Studies. It is responsible for admission policies, the supervision of graduate students, and recommending to Senate those who may receive the degrees, diplomas, and certificates.

7 Fellowships, Awards, and Assistantships

Please refer to the eCalendar@University Re

- iv. Postdocs with full responsibility for teaching a course should be compensated above their fellowship at the standard rate paid to lecturers by their department. This applies to all postdocs, except those for whom teaching is part of the award (e.g., Mellon grantees).
- v. The amount of research, teaching, or other tasks that Postdocs engage in and above postdoctoral activities should conform to the regulations for Postdocs specified by the Canadian research council of their discipline. This applies to all Postdocs, including those whose funding does not come from the Canadian research councils.

4. Privileges

- i. Postdocs have the same pertinent rights as the ones granted to McGill students. In the [Handbook on Student Rights and Responsibilities \(Green Book^o\)](#), available at www.mcgill.ca/secretariat/policies/students
- ii. Postdocs have full graduate student borrowing privileges in McGill libraries through their identity card.
- iii. As a rule, Postdocs who are Canadian citizens or who have Permanent Resident status may take courses for credit. Admission to such courses should be sought by submitting application documents directly to the appropriate program by the Postdoc. Postdocs must be admitted by the department offering the courses as Special Students. These Postdocs may only be enrolled as part-time students in one degree-granting program. They will be charged fees for these courses.
- iv. Postdocs may be listed in the McGill directory. The Computing Centre will grant Postdocs email privileges on the same basis as graduate students upon presentation of a valid identity card.
- v. The Department of Athletics will grant Postdocs access to sports facilities upon presentation of their identity card. A fee will be charged on an annual or term basis.
- vi. Postdocs are mandatory members of the Post-Graduate Students' Society (PGSS) and an annual association fee is automatically deducted. PGSS fees are mandatory. Postdocs are permitted membership in the Rugby Club; an annual fee will be charged for this membership.
- vii. Postdocs are encouraged to participate in Professional Development Workshops provided by Graduate and Postdoctoral Studies. Teaching and Learning services. These sessions are usually free of charge.
- viii. Postdocs have access to the services provided by the Ombudsman.
- ix. Postdocs may enrol as part-time students in the second language written and English/French courses offered by the School of Continuing Studies/French Language Centre. Postdocs will be charged tuition for these courses. International Postdocs may be required to obtain a Canada Study Permit.
- x. Access to student services and athletic services available to the Postdoc on an opt-in basis. Fees are applicable.

5. Responsibilities

- i. Postdocs are subject to the responsibilities outlined in the [Handbook on Student Rights and Responsibilities \(Green Book^o\)](#), available at www.mcgill.ca/secretariat/policies/students
- ii. Each academic unit hosting Postdocs should clearly identify Postdoc needs and the means by which they will be met by the unit.
- iii. Each academic unit should assess the availability of research supervision facilities, office space, and research funding before recruiting Postdocs.
- iv. Some examples of responsibilities of the department are:

.

vii. Some examples of the responsibilities of the University are:

- to register Postdocs;
- to provide an appeal mechanism in cases of conflict;
- to provide documented policies and procedures to Postdocs;
- to provide Postdocs with the necessary information on McGill University student services.

Approved by Senate April 2000; revised May 2014

8.3 Vacation Policy for Graduate Students and Postdocs

Graduate students and Postdocs should normally be entitled to vacation leave equivalent to university holidays and an additional total of fifteen (15) working days in the year. Funded students and Postdocs with fellowships and research grant stipends taking additional vacation leave may have their funding reduced accordingly.

Council of FGS April 23, 1999

8.4 Leave of Absence for Health and Parental/Familial Reasons

A leave of absence may be granted for maternity or parental reasons or for health reasons (see [University Regulations and Resources > Graduate > Leave of Absence Status](#)).

Such a leave must be requested on a term-by-term basis and may be granted for a period of up to 52 consecutive weeks. For maternity or parental leave, the eligibility period of a maximum of 52 consecutive weeks is determined based on when the child is born; if the leave is interrupted for one or more terms, the eligibility period cannot be extended. Students and Postdocs must make request for such a leave in writing to their department and submit a medical certificate. The department shall forward the request to Enrolment Services. See the procedure [University Regulations and Resources > Graduate > Leave of Absence Status](#).

Students who have been granted such a leave will have to register for the term(s) in question and their registration will show as "leave of absence" on their record. No tuition fees will be charged for the duration of the authorized leave.

General Conditions

- The maximum duration is three years;
- the individual must be engaged in full-time research;
- the individual must provide copies of official transcripts/diploma;
- the individual must have the approval of a McGill professor to supervise the research and of the Unit;
- the individual must have adequate proficiency in English, but is not required to provide official proof of English competency to Enrolment Services;
- the individual must comply with regulations and procedures governing research ethics and safety and obtain the necessary training;
- the individual will be provided access to McGill libraries, email, and required training in research ethics and safety. Other University services must

11.1.2 About Anthropology

Our Department places high priority on research and on maintaining a distinguished graduate program. Each year only a small number of highly qualified applicants for studies leading to M.A. and Ph.D. degrees in Anthropology. Thus, our students benefit from close supervision by their committees and from high-quality peer exchange. By maintaining a high student ratio, we are able to offer our graduate students an unusual degree of flexibility and personalized attention in designing their programs according to their specific interests. There are no comprehensive examinations, and the program is particularly congenial to students who are self-directed.

[section 11.1.5 Master of Arts \(M.A.\); Anthropology \(Thesis\) \(48 credits\)](#)

The purpose of the M.A. program is to provide advanced-level training in socio-cultural anthropology and archaeology to prepare students for research at the Ph.D. level.

[section 11.1.6 Master of Arts \(M.A.\); Anthropology \(Thesis\) & Development Studies \(48 credits\)](#)

The Development Studies Option (DSO) is a cross-disciplinary M.A. program that is unique in Canada, if not because it is designed to provide students with a strong practical and theoretical foundation for engaging in genuinely cross-disciplinary research. The option is offered within existing M.A. and Ph.D. programs in the departments of Geography, History, Political Science, Anthropology, Economics, and Sociology. This thesis option is open to master's students specializing in development studies. Students enter through one of the participating departments and must meet the M.A. or Ph.D. requirements of that unit. Students will earn an interdisciplinary seminar and a variety of graduate-level courses on international development issues. The M.A. or Ph.D. thesis must be on a topic relating to development studies, approved by the DSO coordinating committee.

[section 11.1.7 Master of Arts \(M.A.\); Anthropology \(Thesis\) & Environment \(48 credits\)](#)

The Environment option is aimed at students who wish to use interdisciplinary approaches in their graduate research on environmental issues and who wish to benefit from interaction with students from a wide range of related disciplines. Through research, seminars, and courses, this option adds an interdisciplinary layer that will challenge students to defend their research and think in a broader context. This graduate option in Environment provides students with an appreciation for the role of science in informed decision-making in the environmental sector and its influence on political, socio-economic, and ethical judgments. Students who have been admitted through their home department may apply for admission to the option. Option requirements are consistent across academic units. The option is coordinated by the McGill School of Environment (MSE), in partnership with participating academic units.

[section 11.1.8 Master of Arts \(M.A.\); Anthropology \(Thesis\) & Gender and Women's Studies \(48 credits\)](#)

The graduate option in Gender and Women's Studies is an interdisciplinary program for students who meet the requirements in Anthropology (and other participating departments and faculties), who wish to earn 6 credits of approved coursework focusing on gender and women's studies, and issues in feminist research and methodology. The thesis must be on a topic centrally related to gender and women's studies.

[section 11.1.9 Master of Arts \(M.A.\); Anthropology \(Non-Thesis\) \(45 credits\)](#)

This program is currently not being offered.

The purpose of the M.A. program is to provide advanced-level training in anthropology and to prepare students for research at the Ph.D. level.

11.1.3.3 Application Deadlines

The application deadlines listed here are set by the Department of Anthropology and may be revised at any time. Applicants must verify all deadlines and documentation requirements well in advance on the appropriate McGill departmental website; please consult the list at www.mcgill.ca/gps/contact/graduate-program

11.4.2 About Communication Studies

The graduate program in Communication Studies offers M.A. and Ph.D. degrees. The program is concerned with the study of communication phenomena through interdisciplinary training that draws on a variety of fields including cultural studies; critical media and technology studies; public policy governance; film; and sound studies. The program strives to offer a balance of humanities and social sciences approaches to the analysis of communication, and its orientation is primarily qualitative (rather than quantitative) in nature. The M.A. and Ph.D. degrees are academic in character and do not include professional training in journalism, organizational communication, or media production. The Communication Studies program offers courses and directs project research in preparation for the M.A. (Thesis) and Ph.D. in Communication Studies. The graduate option in Gender and Women's Studies is available as a program option, and students benefit from the resources of ahcs@mcgill.ca.

Master's and Ph.D. Degrees

Students enter our graduate programs from a variety of disciplinary backgrounds, though all have a history of documented academic excellence and aptitude for advanced scholarly research. Over the past 30 years, the Graduate Program in Communication Studies has trained Canada's leading communications scholars. Graduates of the program may be found working in all levels of government, within the cultural industries, and in dozens of university Communication Studies departments around the world.

section 11.6.5 Master of Arts (M.A.); Economics (Thesis) (48 credits)

The Master of Arts program in Economics (Thesis) serves students preparing for a Ph.D. in Economics. Students who wish to complement disciplinary training in Economics with research experience in applying statistical methods across the social sciences, the Department offers the Social Statistics Option.

section 11.6.6 Master of Arts (M.A.); Economics (Non-Thesis) (45 credits)

The Master of Arts program in Economics (Non-Thesis) serves students seeking to solidify and deepen their understanding of economics prior to a career in government or the private non-academic sector and those preparing for a Ph.D. in Economics. Students who wish to complement disciplinary training in Economics with research experience in applying statistical methods across the social sciences, the Department offers the Social Statistics Option.

section 11.6.7 Master of Arts (M.A.); Economics (Non-Thesis) & Development Studies (45 credits)

For those students interested in the interdisciplinary study of development, anchored in Economics, the Department offers the Development Studies Option (DSO). This program is offered as an option within existing M.A. programs in the Departments of Geography, History, Political Science, Anthropology, Economics, and Sociology. Students enter through one of the participating departments and must meet the M.A. requirements of that unit. Students will take an interdisciplinary seminar and a variety of graduate-level courses on international development issues.

section 11.6.8 Master of Arts (M.A.); Economics (Non-Thesis) & Population Dynamics (45 credits)

The Population Dynamics Option (PDO) is open to students wishing to specialize in population dynamics. The purpose of this program is to provide graduate training in demographic methods (including life table analyses) and enhance student knowledge of critical population issues. As such, students will be required to take a course on demographic methods and a course in microeconomic methods for population studies. In addition, students will take one complementary course in Economics, which focuses on a particular population issue such as population health, migration, aging, fertility dynamics, and labour markets and skills acquisition. Students will attend at least one seminar given in the Social Statistics and Population Dynamics Seminar series.

11.6.3 Economics Admission Requirements and Application Procedures

11.6.3.1 Admission Requirements

An Honours B.A. in Economics is the normal requirement, although students holding an ordinary B.A., whether in economics or another discipline, may also be eligible for admission. Students judged by the Admissions Committee to have deficiencies in their preparation in economics may be admitted to a Qualifying year in which they undertake advanced undergraduate work.

Students who have not previously passed a suitable course in statistics must take undergraduate Honours Statistics course, ECON 257D1/ECON 257D2. Students are also expected to have completed or to complete three terms of introductory calculus and at least one term of linear algebra.

If your education has been interrupted or if you do not have an undergraduate or graduate degree in economics from a Canadian university, you must take the Graduate Record Examination (GRE; General Test) and arrange for your scores to be sent to us.

Note: The Graduate Management Admission Test (GMAT) cannot be substituted for the GRE. McGill University's institutional code is 0935. The Department of Economics code is 1801. For more information about the GRE, please visit their

11.7.2 About English

The Department of English at McGill is unique, in that its program brings together the related areas of study literature; Drama and Theatre; and Cultural Studies. Graduate students and participants in all areas of Department life have the opportunity to explore aspects of Literature, Cultural Studies, Performance, and Theatre History in their seminar work and research. The Department is home to Dor is a principal participant in a number of major collaborative research projects, including the Barney Centre, the McGill Medievalists, the Bibliographic Society of Canada and research teams on Shakespeare and Performance, Early Modern Editions, Interacting with Print, Eating in Canada, and Lists on the Noel. These research groups and projects are the most visible signs of cross-fertilization among the three areas of the Department's prominence in the field of interdisciplinary research and teaching at McGill and in the academy in general.

The English Department offers both M.A. and Ph.D. degrees. On average, there are 80 graduate students enrolled in the M.A. and Ph.D. programs each year.

The M.A. program admits 25 students each year from around the world. Unlike many other master's programs in English, the McGill M.A. culminates in a major piece of independent research, either a thesis or research paper, which is carried out under the supervision of a faculty member. Approximately half of McGill M.A. graduates go on to Ph.D. programs either at McGill or elsewhere. Other graduates have found employment with foundations, universities, development agencies, publishing houses, consulting firms, and CEGEPs.

The Ph.D. program admits approximately six students each year from around the world. Doctoral students specialize in a broad range of fields within English studies.

All students who apply are considered for financial support, normally in the form of a scholarship that can be supplemented by Research Assistantships.

The Department offers two options toward the M.A. degree; one thesis, and the other non-thesis. Both options consist of 48 credits and are designed to be completed in four terms (of 12 credits each). It is rare for a student pursuing the thesis option to complete the degree in less than two years, although some students do complete the research paper option in one year (Fall, Winter, and Summer terms) or in 16 months (Fall, Winter, Summer, and Fall terms).

section 11.7.5 Master of Arts (M.A.); English (Thesis) (48 credits)

In the thesis option, students must successfully complete Bibliography (ENGL 694) and seven seminars, and write a thesis of 80-100 pages that adheres to the guidelines set under the regulations of Graduate and Postdoctoral Studies. Students submit a proposal for the thesis to the Graduate Administration Committee in the Department; the proposal must be approved before students begin working on the thesis. When completed, the thesis is submitted to the Thesis Office and is viewed by an External Examiner.

section 11.7.6 Master of Arts (M.A.); English (Non-Thesis) (48 credits)

In the non-thesis option, students must successfully complete Bibliography (ENGL 694) and seven seminars, and write a research paper of 40 pages. Students submit a proposal for the research paper to the Graduate Administration Committee in the Department; the proposal must be approved before students begin to write the research paper. The finished paper is evaluated by the supervisor and a second member of the Department. Although the

11.8.2 Généralités : Langue et littérature françaises

Le DLLF offre un environnement particulièrement convivial et stimulant pour des étudiants qui souhaitent une maîtrise ou un doctorat dans le domaine des littératures de langue française, des théories littéraires ou de la traduction littéraire. Le DLLF offre aussi un M.A. avec option en écriture littéraire (« création littéraire » et « traduction littéraire »). Le DLLF accorde un financement à tous ses étudiants, ainsi que des assistantats de recherche et des charges d'enseignement pour les étudiants de Ph. D. Nous sommes l'un des seuls départements de littérature à avoir signé une entente officielle avec l'école Normale Supérieure de Brisbane laquelle nous offre un stage d'un an à certains étudiants de Ph. D.

M.A. avec maîtrise et sans maîtrise, et Ph. D.

Maîtrise

Le programme de maîtrise est à la fois un programme complet en soi et une première étape de Ph. D. Il vise deux objectifs également importants :

1. Permettre à l'étudiant de compléter et d'approfondir ses connaissances dans le domaine littéraire grâce à un programme d'enseignement portant sur les littératures françaises et qui comporte de même que sur un éventail de sujets connexes : théorie littéraire, histoire de la langue, histoire des idées, etc.
2. Favoriser l'apprentissage de la recherche et une spécialisation de la part de l'étudiant qui suit des séminaires d'initiation à la recherche littéraire et, soit rédige un mémoire, soit exécute d'autres travaux de recherche sous la direction des professeurs du Département.

La durée des études de maîtrise est normalement de deux ans. Dans le cas de la maîtrise avec option, elle comprend deux trimestres pour la scolarité (M.A. I), suivis de la rédaction du mémoire. Dans le cas de la maîtrise sans maîtrise, la scolarité s'étend sur trois trimestres, la rédaction de trois travaux réalisés dans le cadre du FREN 698.

La Commission des admissions du Département peut accorder des dérogations au règlement des inscriptions à la Maîtrise en fonction du dossier de chaque étudiant.

Une partie de la scolarité (maximum de 6 crédits) peut être suivie dans un autre département de McGill ou dans des cours dans le domaine des Humanités de l'annuaire des études supérieures et postdoctorales, ou dans une université pourvu que les cours et séminaires y soient de même niveau que les cours 600 ou 700 offerts par le Département. Dans tous les cas, l'étudiant doit obtenir l'autorisation du Directeur des études de la recherche, qui ne sera accordée que si les cours en question correspondent au programme d'études du candidat.

La note de passage est B- (65 %).

Ph. D.

preuve d'anglais

Tous les étudiants de Ph. D. doivent réussir avant le dépôt de leur thèse, une preuve destinée à vérifier leur connaissance de la langue anglaise (FREN 790).

Peuvent être dispensés de cette preuve les traducteurs professionnels et les étudiants qui ont des études antérieures dans des collèges ou des universités anglophones, à condition que leur programme ait comporté des cours donnés en anglais. Geography houses the Hirschfeld Geographic Information Centre, maintains the [McGill High Arctic Research Station](#) (Axel Heiberg Island, Nunavut Territory) and the [McGill Sub-Actic Research Station](#) (Schefferville, Quebec), and has strong ties with the [McGill School of Environment](#) Faculty and students conduct research in fields as diverse as climate change impacts, periglacial geomorphology, forest resource history regions ranging from the Arctic to Southeast Asia and Latin America.

Being both a natural and a social science, geography provides a unique opportunity to obtain a broad exposure to modes of analyzing the environmental and situational problems of contemporary society. Because of this, a geography degree is a fantastic opportunity to obtain a career in one of a wide range of fields. Our students have gone on to become United Nations field researchers in Lebanon, environmental consultants in Toronto, science teachers in the U.S., geography professors in many parts of the world, UNHCR volunteers in Malaysia, and policy analysts, as well as health and social policy researchers in Montreal. The list goes on! If you're on Facebook, look for McGill Geography Alumni or [visit our website](#) to learn more about the advantages of having a geography degree from McGill!

Master's degrees in both the physical (M.Sc.) and social (M.A.) sciences are offered by Geography. The core of both programs for all students is field-based research supervised by faculty members culminating in a thesis. The core program consists of the thesis component, required, and complementary graduate (500- or 600-level) courses.

Geography also offers in association with other McGill departments and programs a number of M.A. and M.Sc. options that students may choose to follow. Students must pass the courses specified for their program, attend such additional courses as the Chair and the student's thesis supervisor think fit, and a thesis in an appropriate area of geographical inquiry approved by the adviser.

McGill Northern Research Stations

The [McGill Sub-Actic Research Station](#) is located in Schefferville, in the centre of Quebec-Labrador. Facilities exist for research in most areas of physical and some areas of human geography in the subarctic.

McGill University also operates a [field station](#) at Expedition Fiord on Axel Heiberg Island in the High Arctic. Facilities are limited to a small lab, dorm building, and cookhouse. Research activities focus on the glacial and geological. For additional information on these stations, contact the Scientific Director [Wayne Ballard](#), Department of Geography.

Master of Arts (M.A.) Programs in Geography

Detailed program requirements for the following M.A. programs are found in [Faculty of Arts > Graduate > Academic Programs > Geography](#).

[section 11.9.5 Master of Arts \(M.A.\); Geography \(Thesis\) \(45 credits\)](#)

Master's degrees in both the physical (M.Sc.) and social (M.A.) sciences are offered by Geography. The core of both programs for all students is field-based research, supervised by faculty members culminating in a thesis. The core program consists of the thesis component, required, and complementary graduate (500- or 600-level) courses. [section 11.9.6 Master of Arts \(M.A.\); Geography \(Thesis\) & Development Studies \(45 credits\)](#)

The Development Studies Option (DSO) is cross-disciplinary in scope with existing master's programs in Geography, Anthropology, History, Political Science, Economics, and Sociology. Components include the thesis; required International Development and Geography courses; and complementary courses from the participating departments. This thesis option is open to master's students specializing in development studies. Students enter through one of the participating departments and must meet the M.A. requirements of that unit. Students will attend a interdisciplinary seminar and a variety of graduate-level courses on international development issues. The M.A. thesis must be on a topic relating to development studies, approved by the DSO coordinating committee.

[section 11.9.7 Master of Arts \(M.A.\); Geography \(Thesis\) & Environment \(45 credits\)](#)

The Environment option is offered in association with the [McGill School of Environment](#) (MSE) and is composed of a thesis component, required, and complementary Geography and Environment courses. The graduate option in Environment provides students with an appreciation for the role of science in informed decision-making in the environmental sector and its influence on political, socio-economic, and ethical judgments. Students who have been admitted through their home department may apply for admission to the option. Option requirements are consistent across academic units. The option is coordinated by the MSE, in partnership with participating academic units.

[section 11.9.8 Master of Arts \(M.A.\); Geography \(Thesis\) & Gender and Women's Studies \(45 credits\)](#)

This is an interdisciplinary program for Geography students wishing to focus on gender and women's studies and issues in feminist research and methods. Included within it are a thesis on gender and women's studies, required, and complementary courses from Geography and Women's Studies.

section 11.9.9 Master of Arts (M.A.); Geography (Thesis) & Neotropical Environment (45 credits)

The McGill-STRI Neotropical Environment Option (NEO) is a research-based option for master's or Ph.D. students in association with several University departments, the McGill School of Environment and the Smithsonian Tropical Research Institute (STRI-Panama). The option includes a thesis; required courses in Geography, Environment, and Biology; and complementary courses chosen from Geography, Agriculture Sciences, Biology, Sociology, Environment, and Political Science. NEO is aimed at students who wish to focus their graduate research on environmental issues relevant to the Neotropics and Latin American countries. NEO offers interdisciplinary approaches to research and learning through the participation of researchers from McGill and from STRI. Students will complete their research in Latin America and NEO's core and complementary courses will be taught in a P-NEO's educational approach seeks to facilitate a broader understanding of tropical environmental issues and the development of skills relevant to working in the tropics.

11.10.2 About History and Classical Studies

The Department of History and Classical Studies has particular strengths in:

- Canadian history;
- British and European history;
- East Asian history;
- the history of medicine;
- the history of science;

and newer fields such as:

- the history of gender and sexuality;
- the history of the Atlantic and Indian Oceans;
- global history

The Department offers interdisciplinary options in European studies, environmental studies, and women's studies at the M.A. level. Both M.A. and Ph.D. students can also write their thesis or research paper on the History of Medicine. The Department is composed of 39 full-time faculty members as well as a strong complement of visiting professors, faculty lecturers, and postdoctoral fellows. This array of dedicated teachers and scholars supports high-quality instruction and research across the periods of history of the globe. Our professors have won many prizes for their books and articles, and their ongoing investigations are supported by the Social Sciences and Humanities Research Council of Canada (SSHRC), the FQRSC, CFI, the Killam Trusts, and the Mellon Foundation. The Department is home to a number of major collaborative research projects, all of which also include students. Among these are the Montreal History Group; the Indian Ocean World Centre (IOWC); Quelques arpents de neige, an environmental history group; and the French Atlantic History Group.

Classics was among the first disciplines taught at McGill College. Our students benefit from the resources of closely related disciplines and the academic expertise of scholars from various backgrounds. Many awards and prizes are available for students who excel in the classroom, and both undergraduates and graduates can join professors on study tours and field projects. Students can also become members of the Classics Association and publish their work in the McGill Journal of Classical Studies, aptly titled "L'Indo-Latin for a swallow," like the martlets found on the McGill coat-of-arms, soaring in search of knowledge.

We offer prospective students the chance to study with leading scholars in a variety of fields.

section 11.10.15 Master of Arts (M.A.); Classics (Thesis) (45 credits)

The M.A. in Classics offers advanced training in the scholarly discipline of classical studies and a variety of fields. The program emphasizes proficiency both in technical areas of the discipline, especially Greek and Latin language, and in critical reading, writing, and research skills. The M.A. in Classics is designed to prepare students to enter doctoral programs or to pursue an academic career in one of the related fields of classical studies. Graduates have also pursued successful careers in teaching, museum science, and branches of service. This program can be completed in one year, though it is normally completed in two years.

section 11.11.7 Doctor of Philosophy (Ph.D.); Information Studies

The Ph.D. in Information Studies provides an opportunity for exceptional candidates to study interdisciplinary research topics at the doctoral level. The program offers a thorough grounding in both current theory and methods of research to ensure that students develop knowledge and critical awareness of relevant theories, principles, and methods in Information Studies and acquire expertise to conduct and promote scholarly research in the field of information studies. The program begins with a set of common courses and proceeds to specialization through dissertation topics focused on areas of expertise that are supported by the research interests of faculty members. Students develop scholarly and innovative expertise in human-information interaction (HII) in one of three research areas: human-computer interaction; information and library services; and information and knowledge management.

The program prepares graduates for a wide range of settings in research, teaching, and senior administrative positions, in Quebec, Canada, and internationally; contributes to the development of knowledge and to teaching/learning in information studies; and enhances national and international visibility of information studies from a research perspective.

section 11.11.8 Graduate Certificate in Digital Archives Management (15 credits)

The Graduate Certificate in Digital Archives Management program is designed to equip students and library professionals with specialized training to enrich their current portfolio or to prepare for work in the areas of digital archives, digital curation, and digital content management. Courses focus on principles and practices in archival studies, digital curation, strategies for digital preservation, and enterprise content management. The program may be completed within two academic terms (Fall/Winter) or to a maximum of three years. Both Fall and Winter entry to the program are offered.

section 11.11.9 Graduate Certificate in Information and Knowledge Management (15 credits)

The Graduate Certificate in Information and Knowledge Management program is designed to equip students and library professionals with specialized training to enrich their current portfolio or to prepare for work in the areas of information and knowledge management. Courses focus on the information behaviour of individuals, networks, and organizations; the nature of tacit and explicit knowledge services; and strategies for identifying, capturing, organizing, storing, sharing, and using knowledge. The program may be completed within two academic terms (Fall/Winter) or to a maximum of three years. Both Fall and Winter entry to the program are offered.

section 11.11.10 Graduate Certificate in Library and Information Studies (15 credits)

The Graduate Certificate in Library and Information Studies is a post-master's program designed to assist library and information professionals currently holding an American Library Association (ALA)-accredited (or equivalent) master's degree to update their qualifications for a new responsibility. The program may be completed in one or two academic terms, or on a part-time basis to a maximum of four years.

section 11.11.11

An applicant with a master's degree in Library and Information Studies (or equivalent) will normally be admitted to Ph.D. 2.

An applicant with a master's degree in another field may be considered for admission to Ph.D. They need to register for courses to upgrade background knowledge in library and information studies.

An applicant who holds only a bachelor's degree from McGill University or an approved institution in Information Studies (or equivalent) in exceptional circumstances may be admitted to Ph.D. 1.

A CGPA of at least 3.0 out of 4.0 at both the undergraduate and graduate levels is required.

2. Applicants to graduate studies whose mother tongue is not English, and who have completed an undergraduate or graduate degree from a recognized foreign institution where English is the language of instruction or from a recognized Canadian institution (anglophone or francophone), must submit documented proof of competency in oral and written English prior to admission. Such proof normally comprises a Test of English as a Foreign Language (TOEFL) with a minimum score of 100 on the Internet-based test (iBT) or on the paper-based test (PBT), with a written score of at least 25 and a reading, speaking, and listening score not less than 20, or the International English Language System (IELTS) with a minimum overall band score of 7.5. Applicants whose mother tongue is not English may be asked to demonstrate English-language competency beyond the submission of the TOEFL or IELTS scores. For more information about proof of proficiency, refer to the Admissions section of the School's website.

Graduate Certificate in Digital Archives Management, Graduate Certificate in Information and Knowledge Management

1. Applicants must have a bachelor's degree from a recognized university. Academic Standing of at least B, or second class \pm upper, or a CGPA of 3.0 out of 4.0 is required.
2. Applicants to graduate studies whose mother tongue is not English, and who have completed an undergraduate or graduate degree from a recognized foreign institution where English is the language of instruction or from a recognized Canadian institution (anglophone or francophone), must submit documented proof of competency in oral and written English prior to admission. Such proof normally comprises a Test of English as a Foreign Language (TOEFL) with a minimum score of 100 on the Internet-based test (iBT) or on the paper-based test (PBT), with a written score of at least 25 and a reading, speaking, and listening score not less than 20, or the International English Language System (IELTS) with a minimum overall band score of 7.5. Applicants whose mother tongue is not English may be asked to demonstrate English language competency beyond the submission of the TOEFL or IELTS scores. For more information about proof of proficiency, refer to the Admissions section of the School's website.
3. Competency in the use of computers is expected. Applicants should have a thorough knowledge of the Windows operating system, particularly file management and word processing, and presentation software such as PowerPoint.

Graduate Certificate in Library and Information Studies

1. Applicants should have a master's degree in Library and Information Studies from a program accredited by the American Library Association (or equivalent). Candidates will normally have at least three years' professional experience following completion of their master's degree.
2. Applicants to graduate studies whose mother tongue is not English, and who have completed an undergraduate or graduate degree from a recognized foreign institution where English is the language of instruction or from a recognized Canadian institution (anglophone or francophone), must submit documented proof of competency in oral and written English prior to admission. Such proof normally comprises a Test of English as a Foreign Language (TOEFL) with a minimum score of 100 on the Internet-based test (iBT) or on the paper-based test (PBT), with a written score of at least 25 and a reading, speaking, and listening score not less than 20, or the International English Language System (IELTS) with a minimum overall band score of 7.5. Applicants whose mother tongue is not English may be asked to demonstrate English-language competency beyond the submission of the TOEFL or IELTS scores. For more information about proof of proficiency, refer to the Admissions section of the School's website.

Graduate Diploma in Library and Information Studies

1. Applicants should have a master's degree in Library and Information Studies from a program accredited by the American Library Association (or equivalent). Admission of students with overseas degrees will be guided by equivalency standards of the A.L.A. Applicants will normally have at least three years' professional experience following completion of their master's degree.
2. Applicants to graduate studies whose mother tongue is not English, and who have completed an undergraduate or graduate degree from a recognized foreign institution where English is the language of instruction or from a recognized Canadian institution (anglophone or francophone), must submit documented proof of competency in oral and written English prior to admission. Such proof normally comprises a Test of English as a Foreign Language (TOEFL) with a minimum score of 100 on the Internet-based test (iBT) or on the paper-based test (PBT) with a written score of at least 25 and a reading, speaking, and listening score not less than 20, or the International English Language System (IELTS) with a minimum overall band score of 7.5. Thesis

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, organize results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate that the research advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly expression and for publication in the public domain.

section 11.14.5 Master of Arts (M.A.); Jewish Studies (Thesis) (45 credits)

This option is aimed at students who have acquired a rich background in Jewish studies through their B.A. and who are ready to focus their study on one period and/or discipline within the broad field of Jewish civilizational studies. Students choosing Eastern European studies, Jewish thought, or Hebrew literature must enter the program with a good command of either Hebrew or Yiddish according to their chosen specialization.

Students may also choose to complete the M.A. (Thesis) program with a stream in the History of the Interpretation of the Bible. This stream is aimed at students who have acquired a rich background in Bible and Jewish studies through their B.A. and who wish to study the Bible and its interpretation within Jewish circles at an advanced level. Students choosing this path must enter the program with a good command of Hebrew.

The degree is normally completed within two years. Subsequent career paths are varied, but could include work in Jewish communal agencies, Jewish schools, Jewish foundations, the rabbinate, or further graduate study in a related field.

section 11.14.6 Master of Arts (M.A.); Jewish Studies (Non-Thesis) (45 credits)

This option is aimed at students who have acquired some background in Jewish studies through their B.A. and who wish to add to their knowledge without having to concentrate on one period or discipline within the broad field of Jewish civilizational studies. Students may take courses in related disciplines outside of Jewish Studies if appropriate. The degree is normally completed within two years. Students must demonstrate good command of Hebrew or Yiddish prior to graduation. Subsequent career paths are varied, but could include work in Jewish communal agencies, Jewish schools, Jewish foundations, the rabbinate, or further graduate study in a related field.

Ph.D. in Jewish Studies

This is an ad hoc program. Please contact the Department for further information on this option.

11.14.3 Jewish Studies Admission Requirements and Application Procedures**11.14.3.1 Admission Requirements**

Ideally, applicants would have completed a B.A. in Jewish Studies. If an applicant is otherwise deemed acceptable, it is possible to be admitted to a Qualifying year. Students seeking admission to the History of the Interpretation of the Bible stream must demonstrate competence in Hebrew to begin the program.

In addition to the appropriate references, transcripts, and examination scores, applicants should send samples of their academic work in their field of interest. Personal interviews are strongly recommended.

11.14.3.2 Application Procedures

McGill's online application form for graduate program candidates is available at www.mcgill.ca/gadapplicants/apply

- Medieval and Renaissance literature and culture;
- Italian cinema from post-WWII neorealism to the present.

These areas are approached from the perspective

1. relations with the historical, social, and political context
2. intertextual relations with contemporary and antecedent works and movements in other European literatures and cultures, with a special attention to questions of identity construction;
3. gender issues; and
4. cultural studies.

Master's Programs

The coursework and the thesis and/or research papers must demonstrate that the student possesses knowledge of the language, is familiar with all periods of Italian literature, and has developed the background and skills necessary to carry out scholarly research.

The regulations concerning the M.A. degree are as stated in [University Regulations and Resources](#).

Ph.D. (Ad Hoc)

The Department of Languages, Literatures, and Cultures also offers the possibility of directly entering a Ph.D. program in Italian Studies on an ad hoc basis; or, with the permission of the supervisor and the approval of the Graduate Program Director, exceptional students may transfer from the M.A. to the Ph.D. program.

[section 11.15.2: Master of Arts \(M.A.\); Italian \(Non-Thesis\) \(45 credits\)](#)

Students enrolled in the M.A. (non-thesis) option complete nine 3-credit courses and submit research papers under the direction of a faculty member

11.15.2.4 Russian and Slavic Studies

Master's and Ph.D. in Russian

Russian and Slavic Studies offers graduate instruction at both the M.A. and Ph.D. levels. Our faculty specializes in 19th- and 20th-century Russian literature and culture, working in such areas as:

- the Russian Novel;
- Dostoevsky;
- Tolstoy;
- Chekhov;
- the Russian Avant-Garde;
- Russian Modernism;
- Russian Opera;
- Russian Romanticism;
- High Stalinist Culture;
- Post-Soviet culture;
- Cultural mythology;
- Intertextuality.

We also offer a broad and flexible range of graduate seminars. Graduate students collaborate with the [Department of Art History and Communication Studies](#), the [World Cinemas Department](#), and the [Institute for Gender, Sexuality, and Feminist Studies \(IGSF\)](#). Our small but dynamic program allows for a great deal of personal attention, an atmosphere of collegiality, and a close-knit intellectual community. The candidate for admission must have an aptitude for research work and be able to make an original contribution to knowledge. Particular emphasis is placed on working with the original language; credits may be allotted, at the discretion of the Department, to coursework leading to advanced proficiency in this area.

Ph.D. Language Tests

Ph.D. candidates in other departments who require Russian for research and instruction in the language requirement should contact the Department for recommended courses.

Original research work and the scholarly qualities of the thesis are the principal criteria for conferring a graduate degree in Russian.

section 11.15.13 Master of Arts (M.A.); Russian (Thesis) (48 credits)

The M.A. in Russian and Slavic Studies consists of coursework plus a research component, which consists of an M.A. thesis proposal and an M.A. thesis.

section 11.15.14 Doctor of Philosophy (Ph.D.); Russian

The Ph.D. in Russian and Slavic Studies consists of coursework, multiple examinations, language requirements, and a dissertation. It offers graduate instruction (seminar and guided independent reading courses) as well as research and thesis supervision in the fields of Russian culture and literature. Students also take graduate courses offered in the Department of Languages, Literatures, and Cultures in literary, theory and media that allow for broader transnational and interdisciplinary perspectives in their research.

Students are encouraged and helped to participate in conferences and to publish the results of their ongoing research. Emphasis is laid on working with the original language. Doctoral dissertation topics are developed in consultation with the faculty. Graduates from the program have gone on to careers in teaching in Canadian and international universities and institutions, as well as exploring other related fields.

11.15.3 Languages, Literatures, and Cultures Admission Requirements and Application Procedures

11.15.3.1 Admission Requirements

TOEFL is required of all graduate studies applicants whose mother tongue is not English, and who have completed an undergraduate or graduate degree from a recognized foreign institution where English is the language of instruction or from a recognized Canadian institution (anglophone or francophone). A minimum score of 86, with each component score not less than 20, is required. TOEFL Internet-based examination (iBT). Proof of TOEFL must be presented at the time of application or shortly thereafter at McGill University's institution code 035.

Students also have the option of taking the IELTS (International English Language Testing Service System) examination, for which the minimum score is an overall band average of 6.5 (academic module) effective for applicants entering the Winter 2015 semester. McGill University only accepts IELTS scores submitted electronically by an IELTS test center. No paper test report forms will be accepted. Institutional code is NO required; applicants must ask the test center where the test is to be taken to send test scores electronically to McGill using the IELTS system.

GERMAN STUDIES

• Master's

In order to be admitted to the M.A. program in German Studies, candidates must have a B.A. degree in German from McGill University or an equivalent degree from another college or university of recognized standing.

Applicants with joint degrees or majors degrees may be admitted on individual merit but they may be required to take additional courses. They may also be able to enter the program as Qualifying students for the purpose of completing these preliminary studies.

In order to pursue graduate studies in German, all candidates must demonstrate fluency in German, as all courses are taught in German.

Graduate students holding a Language Instructorship or who are otherwise employed normally not be allowed to take more than four courses a year. Students may be required to attend an appropriate course in English if their knowledge of that language is judged inadequate. Graduate students are expected to attend the student colloquium.

• Ph.D.:

M.A. or equivalent.

HISPANIC STUDIES

• M.A. Degree (Non-Thesis or Thesis; currently, students are only admitted to the thesis option in exceptional circumstances)

In order to be admitted to graduate work in Hispanic Studies, candidates must fulfill the following prerequisites:

1. Candidates must possess a B.A. degree with Honours or, in certain cases, Joint Honours in Hispanic Studies from McGill University or an equivalent degree from another college or university of recognized standing.
2. Candidates who do not possess the above prerequisites may, with special permission, enter the Department as Qualifying students for the purpose of completing these preliminary studies. They may have to take, among other courses, HISP 550 Comprehensive Examination.

Students may be required to attend an appropriate course in English or French if their knowledge of either language is deemed inadequate.

Prospective candidates may certainly express their preferences, but should note that the Hispanic Studies Graduate Committee reserves the right to determine which of the two options (thesis/non-thesis) students admitted to the M.A. program will be permitted to pursue and/or continue to completion.

• Ph.D. Degree

Applicants must normally possess an M.A. in Hispanic Studies, or in a related discipline, from a university of recognized standing. These applicants will be admitted to Ph.D. 2 and follow the program requirements listed below. Exceptionally qualified candidates may apply to enter into Ph.D. 1 directly from the B.A. Honours, and will be required to complete an additional six 3-credit courses as listed below.

Applicants must demonstrate proficiency in Spanish, and when appropriate, in Portuguese, plus strong knowledge of either French or English.

Applicants should submit samples of research papers that have been completed during the course of their previous studies. Submission of the results of the Graduate Record Examination (GRE) is recommended but not required.

ITALIAN STUDIES

The B.A. degree with Honours or Joint Honours in Italian or its equivalent and a CGPA of 3.2 constitute the minimum requirements. Applicants who do not have these prerequisites may be admitted to a Qualifying year or, in some cases, to a Qualifying term.

RUSSIAN AND SLAVIC STUDIES

The minimum academic requirement is normally a high standing in an undergraduate degree with Honours Russian (or an equivalent specialization). Further the Admissions Committee must be convinced that the candidate for admission has an aptitude for research and will be able to make an original contribution to knowledge.

A working knowledge of French is recommended for the Ph.D. program.

Any necessary preparation to fulfill these requirements will be done within Russian Studies or elsewhere at McGill. Certain graduate courses may be taken with special permission at other approved universities.

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, organize results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate how it advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly expression and for publication in the public domain.

Language Requirement

Proficiency in Spanish, and, when appropriate, in Portuguese, as well as a functional ability in French and English. Knowledge of a fourth language will be determined according to the needs of the candidate's research program.

All courses, comprehensive examinations and language requirements will normally be completed before the dissertation topic is formally approved. A dissertation proposal should be submitted to the Graduate Committee of the Department of Hispanic Studies no later than the end of the second year of full-time doctoral studies.

All general regulations of Graduate and Postdoctoral Studies regarding the Ph.D. degree shall apply.

Required Academic Activities: All candidates preparing their dissertation are required to give an annual formal presentation of their research to the Department, normally beginning in their third year of full-time doctoral studies.

The Department of Mathematics and Statistics offers programs with concentrations in applied mathematics, pure mathematics, and statistics leading to the master's degree (M.Sc.). The non-thesis option requires a project and eight courses.

Ph.D. Programs in Mathematics and Statistics

[section 11.17.7 Doctor of Philosophy \(Ph.D.\); Mathematics and Statistics](#)

The Department offers a course of studies leading to the Ph.D. degree. It differs substantially from the master's programs in that the student must write a thesis that makes an original contribution to knowledge. The thesis topic is chosen by the student in consultation with the research supervisor. The thesis must be examined and approved by an internal examiner (normally the research supervisor), an external examiner and the Oral Examination Committee. The student must make an oral defense of the thesis before that Committee. In addition, the student has to pass comprehensive examinations.

[section 11.17.8 Doctor of Philosophy \(Ph.D.\); Mathematics and Statistics & Bioinformatics](#)

Bioinformatics research lies at the intersection of biological/medical sciences and mathematics/computer science/engineering. The intent of the Bioinformatics option is to train students to become researchers in this interdisciplinary field. It includes the development of strategies for experimental design, the construction of tools to analyze datasets, the application of modelling techniques, the creation of tools for manipulating bioinformatics data, the integration of biological databases, and the use of algorithms and statistics. Students successfully completing the Bioinformatics option at the Ph.D. level will be competent in the concepts, language, approaches, and limitations of the field and will have the capability of developing an independent bioinformatics research program.

11.18.2 About Philosophy

The Department of Philosophy has particular strength in the following areas:

- Ancient Philosophy;
- Early Modern Philosophy;
- Kant and post-Kantian German Philosophy;
- Philosophy of Language and Philosophy of Mind;
- Aesthetics;
- Moral and Political Philosophy;
- Feminist Philosophy;
- History and Philosophy of Science and Mathematics;
- Contemporary European Philosophy

The Department offers assistance to students in every aspect of placement. Our Placement Officer counsels students about course areas of competence, helps to establish evidence of teaching ability, administers the dossier for job applications, and provides advice and follow-up in the interview process. Many of our graduates have gone on to do postdoctoral research and 80% are now in tenure track or sessional appointments.

The Department offers courses of study leading to the Ph.D. in Philosophy. It also offers, in conjunction with the Biomedical Ethics Unit, a course of study leading to the M.A. degree in Bioethics.

Ph.D. Program

By December 15 of their third year in the program (Ph.D. 3) for students admitted at Ph.D. 1 and August 15 in their second year in the program (Ph.D. 3) for students admitted at Ph.D. 2, students must submit a research paper (the "candidate" paper, 3 credits), which may be worked up from a paper written to fulfill the requirements of a graduate course. The Thesis Advancement Committee consisting of at least three members of the staff of the Department. The membership of this committee will be determined by the Graduate Director in consultation with the student; it is anticipated that members of this committee would, in principle, direct the student's thesis.

This committee assigns a grade to the student's paper and, on the basis of its assessment, recommends to the Department as a whole either to permit the student to continue with the Ph.D. program and defend the thesis or to decline to permit the student to continue. Two necessary conditions for a positive recommendation are that the student (a) receive a grade of at least B+ on the candidate

section 11.18.7 Doctor of Philosophy (Ph.D.); Philosophy & Environment

The graduate option in Environment provides students with an appreciation for the role of science in informed decision-making in the environmental sector and its influence on political, socio-economic, and ethical judgments. This option also provides a forum whereby graduate students bring their disciplinary perspectives together and enrich each other's learning through structured courses, formal seminars, and informal discussions and networking.

Students who have been admitted through their home department(s) may apply for admission to the option. Option requirements are consistent across academic units. The option is coordinated by the McGill School of Environment (MSE), in partnership with participating academic units.

section 11.18.8 Doctor of Philosophy (Ph.D.); Philosophy & Gender and Women's Studies

The graduate option in Gender and Women's Studies is an interdisciplinary program for students who meet the requirements in Philosophy who wish to earn 9 additional credits of approved coursework focusing on gender and women's studies, and issues in feminist research and methods. student's doctoral thesis must be on a topic centrally relating to issues of gender and women's studies.

11.18.3 Philosophy Admission Requirements and Application Procedures

11.18.3.1 Admission Requirements

Ph.D.

Students with an Honours B.A. degree in Philosophy or the equivalent, should apply for admission to the Ph.D. program at the Ph.D. 1 level. Students who hold an M.A. degree in Philosophy or equivalent, from another institution should apply for admission to the Ph.D. program at the Ph.D. 2 level. Students entering the Ph.D. program (at Ph.D. 1 or Ph.D. 2) will be required to complete 2 years of coursework. (N.B. At present, we do not normally consider applicants for an M.A. in Philosophy with the exception of the specialty M.A. in Biomedical Ethics.)

The Department considers an Honours B.A. degree to include:

1. A general knowledge of the history of Western philosophy: Greek, Medieval, Modern;
2. A systematic knowledge of the main philosophical disciplines in their contemporary as well as historical contexts: logic, ethics, epistemology and metaphysics;
3. An ability to present, in written form, clear and substantial reconstructions and analyses of the materials normally studied in the areas mentioned in (1) and (2).

To demonstrate their competence in these areas, applicants must submit transcripts of academic records and letters of recommendation from persons with whom they have studied, and at least one substantial sample (approximately 15±20 typed pages) of their written philosophical work.

In addition, applicants from North America whose first language is English are strongly encouraged to submit scores of the

Thesis

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, organize results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate research that advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly composition and for publication in the public domain.

11.19.2 About Political Science

The Department offers programs leading to the M.A. (with or without thesis) and Ph.D. degrees. These programs combine depth of specialization in a particular field with breadth of knowledge in related fields. The staff offers courses and supervises research on most of the important areas of political science. Students may specialize in any of the following:

- Canadian Government and Politics;
- Comparative Politics;
- Political Theory; or
- International Relations.

M.A. graduates gain the scholarly preparation required to proceed to the Ph.D. program at McGill University. Alternatively, the M.A. degree prepares graduates for teaching at the college level, for advanced study in other disciplines, or for rewarding jobs in government and in the private sector. Students in the M.A. program may choose either the Research Essay option or the Thesis option. Both options are generally recognized as among the most demanding and rewarding in Canada.

11.21.2 About Quebec Studies / études sur le Québec

In 1963, McGill University established a French Canada Studies program. Some of the special resources of the program are devoted to research on Quebec and French Canada. In 1992, the name of the program was changed to Quebec Studies to reflect its central focus.

The program is offered at the undergraduate level. Should their main field of study be Quebec, graduate students must apply to the departments.

Graduate students taking courses dealing in whole or in part with Quebec, or who are studying Quebec as their special field of study to make use of the facilities of the Quebec Studies program.

En 1963, le Programme d'études canadiennes-françaises fut créé à McGill. En collaboration avec les autres départements de l'Université, le programme a notamment pour but de développer la recherche sur divers aspects du Québec et du Canada français. Depuis 1992, l'appellation du programme a été modifiée pour celle de Programme d'études sur le Québec afin de mieux cerner clairement les objectifs poursuivis.

Les activités du programme se concentrent au premier cycle. Les étudiants qui désirent poursuivre des études en vue de l'obtention d'une maîtrise ou d'un doctorat portant sur le Québec doivent s'adresser aux départements concernés.

Les étudiants dont les cours portent, en tout ou en partie, sur le Québec ou qui se spécialisent dans ce domaine, sont invités à utiliser les services du Programme d'études sur le Québec.

11.22.2 About Social Studies of Medicine

The Department (SSOM) offers graduate studies in three areas:

- Medical Anthropology thesis program, jointly with the Department of Anthropology;
- History of Medicine non-thesis program, jointly with the Department of History and Classical Studies; and
- Medical Sociology thesis & non-thesis program, jointly with the Department of Sociology

In each program, the student may work toward the M.A. and Ph.D. degrees. All degrees are awarded by the relevant Faculty of Arts department. For further information regarding those departments, please consult the [section 11.1 Anthropology](#), [section 11.10 History and Classical Studies](#) or [section 11.24 Sociology](#) sections.

The Department (SSOM) is interdisciplinary, having faculty in the fields of medical anthropology, medical history and medical sociology. In its programs of graduate studies, it attempts to provide two things: training that is solidly grounded in the discipline of the chosen program, i.e., in anthropology or sociology; and, through seminars and interaction with Department members and other graduate students, exposure to the other disciplines that are represented in the Department. The Department aims to instill in its graduates a combination of disciplinary competence and interdisciplinary perspective.

section 11.1.10 Master of Arts (M.A.); Medical Anthropology (Thesis) (48 credits)

The program is open to students with backgrounds in the social sciences, the medical professions, or the medical sciences. The M.A. degree is awarded by the Anthropology Department and admission is granted by a Joint Admissions Committee made up of representatives from Anthropology and the Department of Social Studies of Medicine.

section 11.10.13 Master of Arts (M.A.); History of Medicine (Non-Thesis) (45 credits)

The program is composed of required courses, graduate seminars, plus a major research paper. The program is normally completed in three terms, or one calendar year.

section 11.24.8 Master of Arts (M.A.); Medical Sociology (Thesis) (45 credits)

This includes coursework and a research thesis that is based on original research.

section 11.24.12 Master of Arts (M.A.); Medical Sociology (Non-Thesis) (45 credits)

This includes coursework and a research paper based on original research.

Ph.D. Programs

For information on the doctoral programs, please refer to the appropriate Department: [section 11.1 Anthropology](#), [section 11.10 History and Classical Studies](#) or [section 11.24 Sociology](#).

11.22.3 Social Studies of Medicine Admission Requirements and Application Procedures

11.22.3.1 Admission Requirements

M.A. in Medical Anthropology

The program is open to students with backgrounds in the social sciences, the medical professions, or the medical sciences.

M.A. in the History of Medicine

Candidates must have a background in either history (Honours B.A. in History or equivalent) or a degree in one of the health professions.

M.A. in Medical Sociology

The program is open to students with a background in social sciences, health professions, or health sciences. It aims to prepare candidates for a career in teaching and research in medical sociology, and there is consequently a preference for applicants with the potential to proceed to the doctoral level.

Ph.D. Programs

Candidates for a Ph.D. will normally have taken their M.A. in the same field. Please refer to the appropriate department: [section 11.1 Anthropology](#), [section 11.10 History and Classical Studies](#) or [section 11.24 Sociology](#).

- marginalized groups (e.g., immigrants and refugees, affected populations, gay, lesbian, bisexual, and transgender people);
- loss and bereavement;
- domestic violence;
- international social work.

Our approaches to practice and research cover all levels of intervention from individuals, families, groups, and communities. Located within the School of Social Work are specialized centres devoted to research and training in the areas of domestic violence; children and youth, and international human rights. Graduate students also have access to workstations equipped with computers, and professional development workshops and seminars. Several research assistantships and teaching assistantships are available each year.

The McGill School of Social Work is a member of the International Association of Schools of Social Work.

consist of a thesis and six courses (of which are required), taken over an extended period of three to four terms of full-time study. Prospective students will hold a B.S.W degree with a minimum of one year of prior social work related experience (voluntary and/or professional).

Subsequent career paths are varied and lead to exciting opportunities in health, social services, and community organizing, where social workers undertake clinical, leadership, or policy roles.

[section 11.23.8 Master of Social Work \(M.S.W\); Social Work \(Non-Thesis\) \(45 credits\)](#)

The M.S.W Non-Thesis program is designed for students who have been interested in developing an advanced intellectual understanding and a specialized set of practice skills in one of three areas: Children and Families; Health and Social Care; or International and Community Development. This program entails three semesters of full-time study that consist of coursework, professional education in a supervised field placement, and an independent study project. Prospective students will hold a B.S.W degree with a minimum of one year of prior social work related experience (voluntary and/or professional), or will have successfully completed the Qualifying year entry into the M.S.W

M.S.W. Thesis and Non-Thesis Programs

Applicants who have successfully completed a B.S. with a minimum high B average (GPA 3.2/4.0), and who have completed coursework in statistics and in research methods at the undergraduate level within the last two years are admissible to the Master of Social Work program. Applicants are expected to have one year of paid or volunteer professional social work experience prior to admission.

Students who have completed the one-year full-time Qualifying year of study at the School of Social Work are eligible for direct admission to the M.S.W. Non-Thesis program provided they have secured a minimum B average in Qualifying courses, and have successfully fulfilled all other requirements.

M.Sc.A. Program

The Master of Science in Couple and Family Therapy is designed to allow students with an M.S. degree, or an equivalent graduate level degree, to receive advanced credit and be eligible for advanced level entry (minimum of 45 credits) over three terms. Admission to the program will be interdisciplinary with candidates entering from related human science, social science, or helping profession backgrounds such as Work, Social Psychology, Educational Psychology, Sociology, Nursing, or other related disciplines. Applicants, who have successfully completed a bachelor's or master's degree in a related human science, social science, or helping profession, with a minimum CGPA of 3.0 out of 4.0, are eligible to apply.

Joint program: Master of Social Work (M.S.W.) with integrated Bachelor of Civil Law (B.C.L.) / Bachelor of Laws (LL.B.)

Applicants must apply separately for admission to each. Applicants must meet or surpass the requirements for admission to both the Master of Social Work and to Law and must submit a brief statement explaining their interest in this joint program along with all other required admission materials.

- Ph.D. Curriculum Vitae Form
- Ph.D. Research Proposal (maximum length 6 pages, single-spaced, including references. Do not append detailed CV)
- Written Work (upload one sample)

11.23.3.3 Application Deadlines

The application deadlines listed here are set by the School of Social Work and may be revised at any time. Applicants must verify all deadlines and documentation requirements well in advance on the appropriate McGill departmental website; please consult the list at www.mcgill.ca/gps/contact/graduate-program

The Qualifying year, M.S.W., and M.Sc.A. deadlines below apply to all application documents, except university transcripts and references which must be received by January 15.

11.23.5 Qualifying Year of Study (for Entry into the M.S.W.)

Applicants to the Qualifying year of study for entry into the M.S.W. program who have completed a bachelor's degree (DCS/DEC from CEGEP plus a minimum of a 90-credit or three-year university degree, or a high school diploma plus a minimum of a 120-credit or four-year university degree) with a high B average (GPA 3.2/4.0), and have a minimum of one year of paid or volunteer professional social work or related experience, are eligible for consideration. Prior to entry applicants must also have completed the following prerequisite courses, achieving a minimum grade of B in each course:

- one 3-credit undergraduate Research Methods course in the social sciences, completed within the last 5 years;
- one 3-credit undergraduate Statistics course, completed within the last 5 years;
- one 3-credit undergraduate course in human development, completed within the last 5 years;
- three 3-credit (9 credits total) Social Science courses.

Applicants admitted to the Qualifying year are immersed in two terms of full-time study only in coursework and fieldwork. This full-time Qualifying year of study is comprised of 15 credits per term. Students who complete the one-year full-time Qualifying year of study at the School of Social Work are eligible for direct entry into the M.S.W. program (Non-Thesis only) provided they have secured a minimum B+ grade in each Qualifying year course and have successfully fulfilled all fieldwork requirements. Applications to the Qualifying year are accepted for admission only and for full-time study only as this is an integrated program of study for the entire year that cannot be taken out of sequence.

For more information, please visit the School of Social Work website: www.mcgill.ca/socialwork.

11.23.6 Master of Science, Applied (M.Sc.A.); Couple and Family Therapy (Non-Thesis) (60 credits)

This master's clinical program (non-thesis) emphasizes clinical understanding and training in couple and family therapy applicable to multidisciplinary clinical professionals in which family systems and related theories can inform clinical practice. The general objectives are:

CAFT 605	(3)	Advanced Family Treatment Across the Lifespan
CAFT 606	(3)	Internship 1 in Couple and Family Therapy
CAFT 607	(3)	Legal, Ethical and Professional Issues in C & FT
CAFT 608	(3)	Human Development Across Lifespan: Couple & Family Therapy
CAFT 609	(3)	Advanced Couple Therapy
CAFT 610	(3)	Biological Foundations of Behaviour for C&FTs
CAFT 611	(6)	Internship 2 in Couple and Family Therapy
CAFT 612	(6)	Internship 3 in Couple and Family Therapy
SWRK 610	(3)	Family Treatment
SWRK 622	(3)	Understanding and Assessing Families
SWRK 623	(3)	Couple Therapy
SWRK 630	(3)	Adult Mental Health

Complementary Courses (3 credits)

from the following:

EDPC 503	(3)	Human Sexuality: Professionals
SWRK 621	(3)	Seminar on Trauma and Resilience
SWRK 628	(3)	Violence against Women
SWRK 635	(3)	Advanced Clinical Seminar: Use of Self
SWRK 655	(3)	Seminar on Aging
SWRK 657	(3)	Seminar on Mental Health
SWRK 668	(3)	Living with Illness, Loss and Bereavement

In consultation with the Field Education Coordinator, students may have the option of completing their field requirements at an approved social service agency outside of Quebec.

Elective Courses (12 credits)

12 credits of SWRK 500- or 600-level courses; up to 6 credits in total may be taken outside the Department.

11.23.8 Master of Social Work (M.S.W.); Social Work (Non-Thesis) (45 credits)

The School of Social Work at McGill University prepares graduates for careers and leadership in the fields of social and social welfare. In the M.S.W. program, students develop an understanding of a broad range of theories that inform practice, and research. Envisioned as an opportunity to advance knowledge and skills, students are encouraged to immerse themselves in an area of scholarship and practice related to "Children and Families," "Social Care and Health Studies," and "Community and International Development." In addition, students investigate a subject matter of their choice in one of these broad areas of study through an independent study project or a master's thesis. Through the M.S.W. program, students develop critical and innovative approaches to practice competence and to policy analysis such that they may contribute to both established social services and to underdeveloped areas of service provision.

Research Project (9 credits)

SWRK 653	(3)	Research Methods 1
SWRK 660	(6)	Field Work Practicum 3

NOTE:

While not a prerequisite for admission, possession of a working knowledge of the French language is important not only to candidates who intend to seek admission to the Quebec professional order after graduation, but also to those who wish to maximize their field placement opportunities during their program. In consultation with the Field Education Coordinator, students may have the option of completing their field requirements at an approved social service agency outside of Quebec.

Elective Courses (18 credits)

18 credits of 500- or 600-level courses; up to 6 credits in total may be taken outside the School.

Students in both M.S.W. options are invited to take up to two courses in other departments of the University in areas of study not offered in the School of Social Work.

11.23.9 Master of Social Work (M.S.W.); Social Work (Non-Thesis) — Gender and Women's Studies (45 credits)

The Graduate Option in Gender and Women's Studies is an interdisciplinary program for students who meet the requirements in Social Work and who wish to take 6 credits of approved coursework to focus on gender, sexuality, feminist, and women's studies and issues in feminist research and methods.

11.23.12 Doctor of Philosophy (Ph.D.); Social Work

(Offered jointly by McGill and Université de Montréal.)

Thesis

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, to analyze results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate that the research advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly expression and for publication in the public domain.

11.24.2 About Sociology

The Department offers training leading to the following degrees:

- Master of Arts in Sociology (Thesis and Non-Thesis)
- Master of Arts in Sociology ± De

The Department of Sociology has very high standards and an excellent record of placing students in both academic and non-academic careers in institutions ranging from the University of Chicago and Berkeley to StatsCan and CEGEPs. The Department has a stellar record of research publications and a lively graduate program, and we benefit from many faculty appointments allowing us to be at the forefront of current issues. A large number of M.A. programs are offered, as well as a variety of the Ph.D. level (see below). The Department has full access to the resources of StatsCan, with additional training for students.

We have particular strength in the following fields:

- comparative political sociology and development;
- diversity and inequalities;
- population and health.

Availability of Funding

The Department offers a limited number of teaching assistantships. A full teaching assistantship consists of a maximum of 180 hours per term. Appointments for a full teaching assistantship span 15 weeks with an average of 12 hours per week.

M.A. Program Options

[section 11.24.5 Master of Arts \(M.A.\); Sociology \(Thesis\) \(45 credits\)](#)

This program provides excellent methodological training and is principally designed for students who wish to gain experience doing original research. Some students have stopped at this stage; more go on to higher degree work. Researching and writing a thesis requires considerable time, and this program typically takes two years to complete.

[section 11.24.6 Master of Arts \(M.A.\); Sociology \(Thesis\) & Development Studies \(45 credits\)](#)

This program is for students with a particular interest in development in an area in which McGill is very strong. Researching and writing a thesis takes considerable time, and this program typically takes two years to complete. Students enter through one of the participating departments and must meet the M.A. requirements of that unit. Students will attend an interdisciplinary seminar and a variety of graduate-level courses on international de-

section 11.24.12 Master of Arts (M.A.); Medical Sociology (Non-Thesis) (45 credits)

The Department contributes to knowledge at the forefront of current issues in particular those dealing with health systems and with policies concerning HIV/AIDS. This program is a cooperative effort of the Department of Sociology and the Department of Social Studies of Medicine. Students who have chosen this option have gone on to do further research and others to personally in the health services. The program is designed to be completed within twelve months.

section 11.24.13 Master of Arts (M.A.); Sociology (Non-Thesis) & Population Dynamics (45 credits)

The purpose of the Population Dynamics Option (PDO) is to provide graduate training in demographic methods (including life table analyses) and enhance students' knowledge of critical population issues. As such, students will be required to take a course on demographic methods and a substantive course on the population issues facing societies today. In addition, students will take one complementary course in Sociology; Economics; or Epidemiology Biostatistics, and Occupational Health, which focuses on a particular population issue such as population health, migration, aging, family dynamics, and labour markets and skills acquisition. Students will attend at least one of the seminars given in the Social Statistics and Population Dynamics Seminar series. Research Projects must be on a topic relating to population dynamics and approved by the PDO coordinating committee.

Ph.D. Program Options

section 11.24.14 Doctor of Philosophy (Ph.D.); Sociology

There are two ways to enter the Ph.D. program. Some students are tracked (i.e., from a B.A. degree without having to complete an M.A. in Sociology), as Ph.D. 1 students; they take twelve substantive courses, in addition to various thesis requirements, and are trained in qualitative and quantitative research methods and in research design. Other students, typically those with an M.A. in Sociology, are considered as Ph.D. 2 students; they typically take six substantive courses, in addition to various thesis requirements. Although further courses may be required if their methodological skills do not meet the standards required by the Department. Our Social Statistics Laboratory allows students to make systematic use of quantitative data sources. All students must pass two area exams and present a thesis proposal before turning to the thesis itself, which can be in the form of a single piece of research, or a set of articles on a particular theme.

section 11.24.15 Doctor of Philosophy (Ph.D.); Sociology & Gender and Women's Studies

This interdisciplinary program is for students who meet the Ph.D. requirements in Sociology and who wish to earn 6 credits of coursework focusing on gender and women's studies, and on issues in feminist research and methodology. The thesis or set of articles must relate to issues of gender and/or women's studies.

section 11.24.16 Doctor of Philosophy (Ph.D.); Sociology & Population Dynamics

This program aims to provide advanced graduate training in demographic methods (including life table analyses) and enhance students' knowledge of critical population issues. As such, students will be required to take a course on demographic methods and a substantive course on the population issues facing societies today. In addition, students will take one complementary course in Sociology; Economics; or Epidemiology Biostatistics, and Occupational Health, which focuses on a particular population issue such as population health, migration, aging, family dynamics, and labour markets and skills acquisition. Students will attend at least one of the seminars given in the Social Statistics and Population Dynamics Seminar series. Dissertation topics must be related to population dynamics and approved by the Population Dynamics Option (PDO) coordinating committee.

11.24.3 Sociology Admission Requirements and Application Procedures

11.24.3.1 Admission Requirements

Applicants must have a bachelor's degree with a standing equivalent to a cumulative grade point average (CGPA) of 3.3 or better out of a possible 4.0. The degree may be either in Sociology or in another relevant social science. In the latter case, applicants may be required to take additional sociology courses to fill gaps in their background.

The strength of an applicant's academic record is of primary importance in consideration of an application. For a detailed description of courses open to graduates and undergraduates, and of preparation required of McGill University honours students, candidates should consult the Faculty of Arts & Science Undergraduate section.

All applicants are asked to submit a writing sample. Applicants who have not attended a Canadian university must submit with their applications the results of the Verbal, Analytical, and Quantitative aptitude tests of the Graduate Record Examination (GRE). Arrangements to take the GRE should be made directly with the Educational Testing Service by visiting their website at www.ets.org/gre.

Certain students must submit documented proof of competence in oral and written English. The minimum acceptable score for the TOEFL exam is 86 overall on the Internet-based test (iBT) or less than 20 in each of the four component scores. For more information on whether the TOEFL is required please visit [www.mcgill.ca/grerall01j-0.0277461n 1 5.86.364 4\(Pub\)iteis July 25, 20155 cred\(CG\)CPGP](http://www.mcgill.ca/grerall01j-0.0277461n 1 5.86.364 4(Pub)iteis July 25, 20155 cred(CG)CPGP)

Telephone: 514-398-4349

Website: www.mcgill.ca/internationalstudents

Candidates who lack sufficient preparation in the social sciences, whose academic record justifies consideration for conditional admission to the master's graduate program, must register for a qualifying year during which they are required to take courses to broaden their knowledge of sociology. Candidates must achieve a final grade of at least a B in these courses and an average in all courses of at least B+; in general, therefore, in the opinion of the Department, have achieved sufficient preparation in the subject matter of sociology before they will be allowed to proceed with graduate work. All candidates are expected to have taken courses in statistics, research methods, and sociological theory at the graduate level.

Any prospective students are encouraged to contact faculty members that they may wish to work with to ascertain that they will be available and not on leave.

The Population Dynamics Option (PDO) is open to Masters (non-thesis) students in Sociology specializing in Population Dynamics. The purpose of this program is to provide graduate training in demographic methods (including life table analyses) and enhance students' knowledge of critical population issues. As such, students will be required to take a course on demographic methods and a substantive course on the population issues facing societies today. In addition, students will take one complementary course in Sociology; Economics; or Epidemiology, Biostatistics, and Occupational Health, which focuses on a particular population issue such as population health, migration, and labour markets and skills acquisition. Students will attend at least six of the seminars given in the Social Statistics and Population Dynamics Seminar series. Research projects must be on a topic relating to population dynamics, approved by the PDO coordinating committee.

11.24.14 Doctor of Philosophy (Ph.D.); Sociology**Thesis**

A thesis for the doctoral degree must constitute original scholarship and must be a distinct contribution to knowledge. It must show familiarity with previous work in the field and must demonstrate ability to plan and carry out research, analyze results, and defend the approach and conclusions in a scholarly manner. The research presented must meet current standards of the discipline; as well, the thesis must clearly demonstrate how the research advances knowledge in the field. Finally, the thesis must be written in compliance with norms for academic and scholarly expression and for publication in the public domain.
