

ATV Electric Conversion

I. Project Overview

Project summary:

Gantt Chart

Completed
To Be Completed

Stakeholders:

Gault Natural Reserve: As mentioned above the GNR is the client to whom the working prototype will be delivered. The GNR provided \$2,500 for the realization of the project.

Professor Peter Radziszewski: Instructor of the course. Assigned the project and heads the project advising team. Main contact person with external participants.

Mr. Chris Prahacs: Advisor of the project team. Provides weekly feedback on design process and grades deliverables.

Bombardier recreational Products: BRP donated an engineering test vehicle (Outlander 800 MAX ATV's; new vehicle valued at around \$10,000). A non-disclosure agreement was signed giving us access to technical documentation and expertise. Two conditions applied as part of the sponsorship: BRP needs to be able to test-d
